

```
export default Component.extend({  
  margin: -5,
```

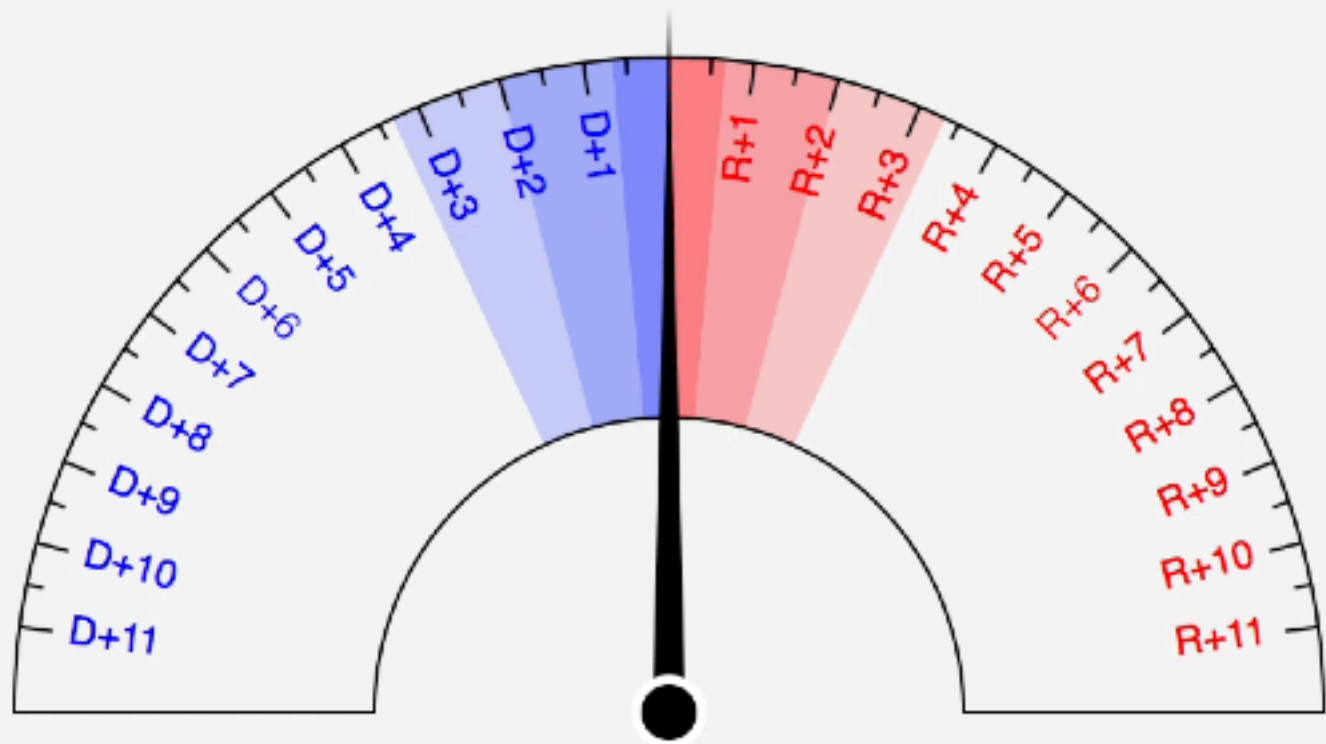

```
  scale: scaleLinear()  
    .range([-12, 12])  
    .domain([-90, 90]),
```

```
  angle: computed('margin', function() {  
    return this.scale(this.margin);  
  })  
});
```

Defining a Scale

```
export default Component.extend({  
  margin: -5,
```

```
  scale: scaleLinear()  
    .range([-12, 12])  
    .domain([-90, 90]),
```

```
  angle: computed('margin', function() {  
    return this.scale(this.margin);  
  })  
});
```
